Autoevaluation - Ratio Calculator

- **It works (200pts):** I didnt find a way to break it and it works well so 200pts

- **The code is understandable (80pts):** i understand it but maybe someone else finds it confusing so 60pts

- **It has documentation (80pts):** i didnt comment that much so 40pts

- **It includes flow diagram or UML diagram (52pts):** i did a diagram so 52pts

- **Include a GUI (+50 pts)** i did a pretty nice GUI so +50

- **Include that the user can use a file from the computer (+150 pts)** i did also this and it works well so +150

- **TOTAL:** 552

Autoevaluation - Coordinate Calculator

- **It works (200pts):** I didnt find a way to break it and it works well so 200pts

- **The code is understandable (80pts):** i understand it but maybe someone else finds it confusing so 60pts

- **It has documentation (80pts):** i didnt comment that much so 40pts

- **It includes flow diagram or UML diagram (52pts):** i did a diagram so 52pts

- **Include a GUI (+50 pts):** i did a pretty nice GUI so +50

- **nclude that the user can see the graph and test it with the following equation named 'Polar rose' k has to be an integer so it looks correct (+150 pts):** i did also this and it works well so +150

- **TOTAL:** 552

TOTAL OF BOTH - 1104

shrimp +10pts (optional) :) 1114
